

Testimony regarding Bill SB No. 184
by Guobin Wang

I oppose Bill SB No. 184. I, Guobin Wang, am a PhD scientist working in biotech field, and a resident of Woodbridge, CT.

The absentee ballots in 2020 presidential election created a large amount of issue in many states and divided our country deeply. We should not divide Connecticut further by expending absentee ballots.

The number of COVID-19 infected decrease sharply and will continue to decrease further in later of this year. In-person vote should be safe.

The absentee ballot mailing, signature checking require a large amount of work and resources. Many of ballots were not qualified in the past. In person vote is more reliable and cost-saving.

Thank you for your service.

A handwritten signature in black ink, appearing to read 'Guobin Wang', with a stylized flourish at the end.
